ENRICHED AIR/NITROX

## GOT GAS? WE DO!

Whether you're into underwater photography or wreck diving, on vacation with multi-day dives in some tropical paradise or just out for a leisurely day of diving at your local dive site, the PADI Enriched Air Diver course helps you get more out of diving by giving you more time underwater. One of the most powerful tools available to the recreational diving community over the last decade is Enriched Air, also called Nitrox. We all want more time underwater without added risk and Enriched Air allows just that.

Not only does Enriched Air allow for longer no decompression times on the first dive of the day, but you will notice even more available time on repetitive dives and you may not feel as tired.

### FULL CERTIFICATION PROGRAMS

Get certified in one session. Complete all your course work over a couple of hours at Malibu Divers.
