**RESCUE DIVER & EFR**

## THE HARDEST CLASS YOU'LL EVER LOVE

*Want more confidence in yourself and your diving?*

The PADI Rescue Diver class is probably the single most important class you will ever take. Malibu Divers takes pride in making rescue classes fun, while still allowing you to perfect the skills you need to be a better buddy.

The course consists of one classroom session, one pool session, two days of beach sessions and an on-beach final that will test all of your skills in a simulated emergency situation, earning you a PADI Rescue Diver certification. This certification is recognized around the world and is an important prerequisite to PADI training for Master Scuba Diver, Divermaster and Instructor.

### OUR CLASS

We take training and safety seriously. That's why when you sign up for our Rescue Class, you also go through EFR. Emergency First Response training (First Aid & CPR) as well. We feel that this additional training, usually optional with other dive shops, helps us produce better trained divers who are better prepared to help themselves as well as other divers.

### SUMMARY OF RESCUE SKILLS

- Situation Assessment
- Self Rescue
- Diving First Aid
- Equipment Problems
- Tired Diver
- Distressed Diver Underwater
- Surfacing the Unconscious Diver
- Unconscious Diver on Surface
- Diving Accident Scenarios
